DYNAMIC DISPLAY

Advance

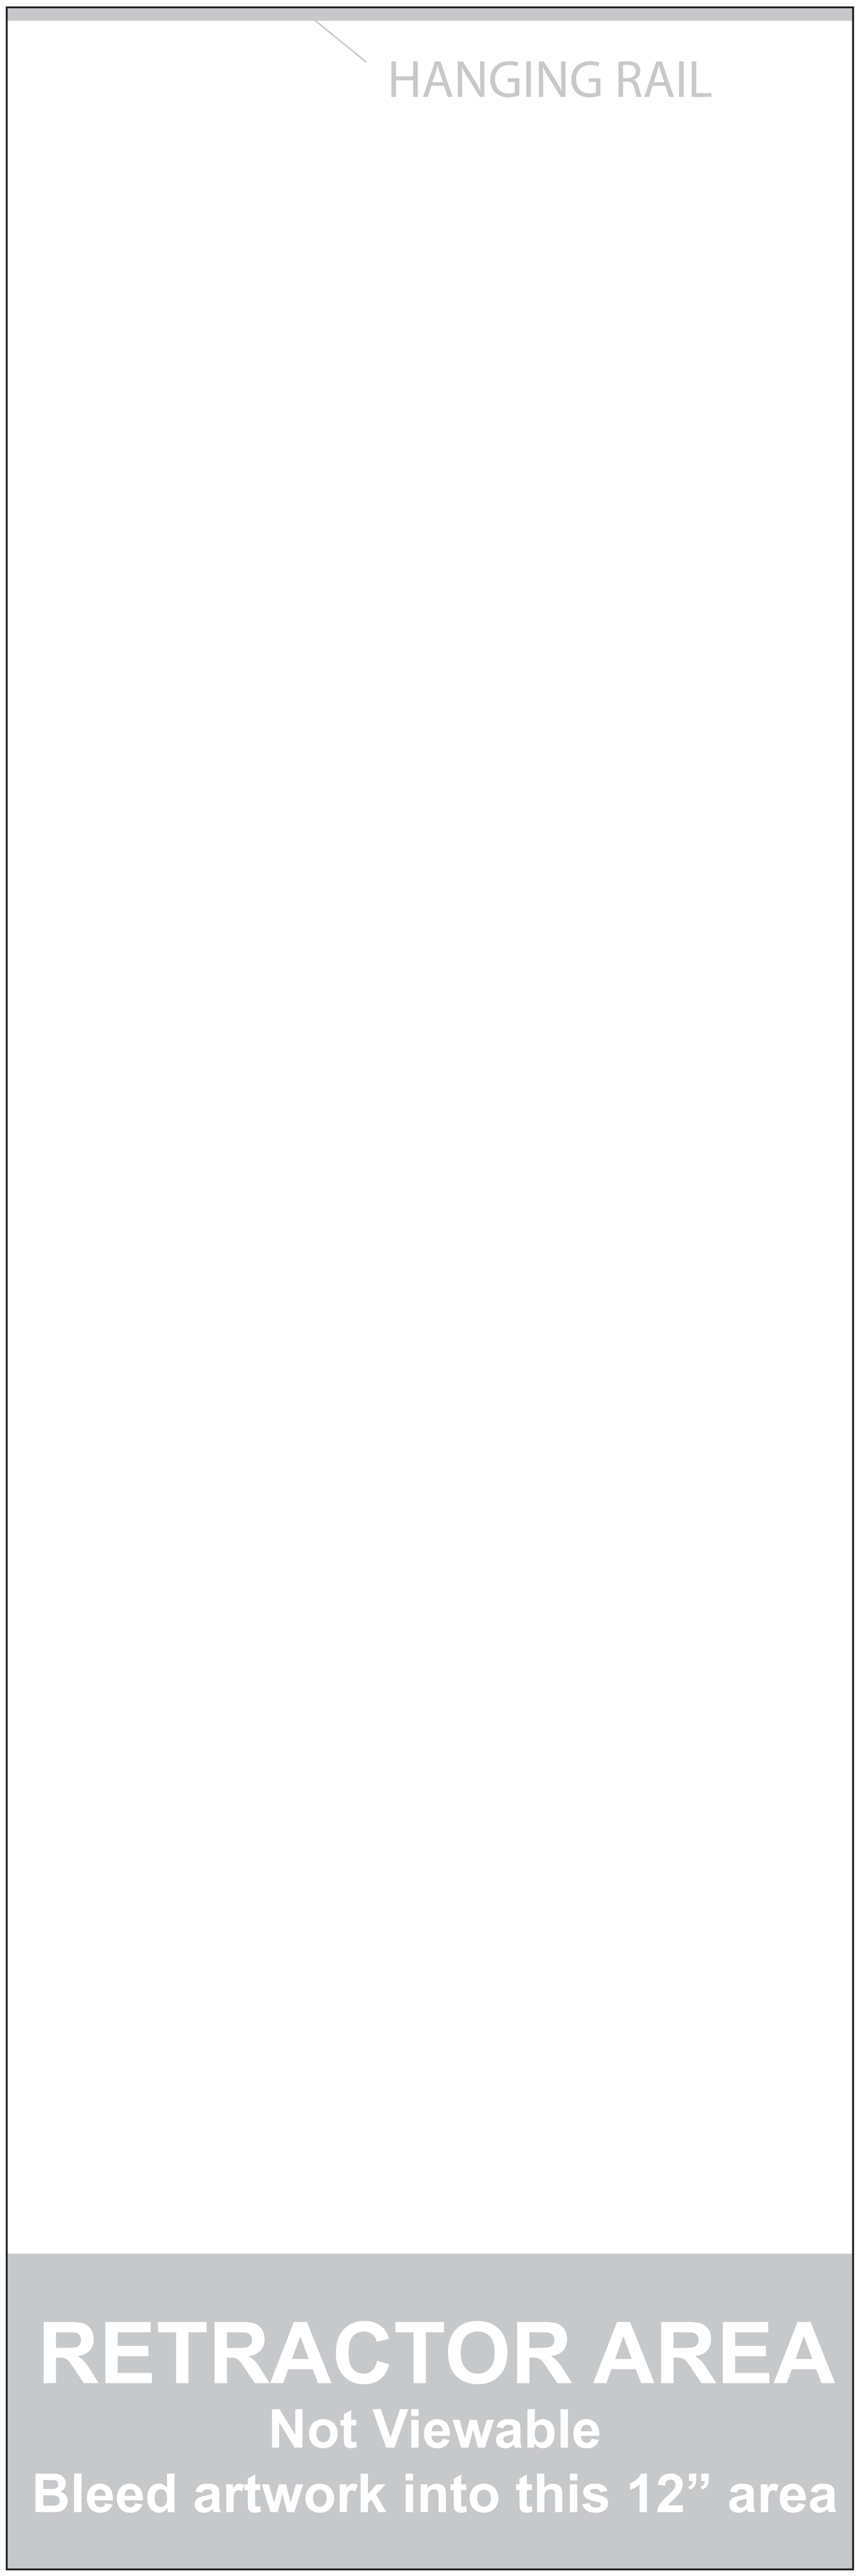
Finish Print Size: 31.5”w x 95.35”h
Visual Area: 31.5“ w x 83.35“h

Hardware requires 1/2” at top for hanging rail and 12“ at the bottom for the retractor mechanism.

Graphics that bleed off the edges require additional bleeds for trimming.

- Inkjet graphics: Add an additional 1/2” to each of the 4 sides
- Dye Sublimated Graphics: Add an additional 2” to each of the 4 sides (very important)

General Guidelines

CMYK Color
Don’t embed images, supply them
Resolution between 100-120 ppi
Convert fonts to outline or provide them
Spec critical colors in PMS solid coated


Support: 1-888-318-8282
